Work Experience

Software Engineer

XEBIA NDS India Privat Ltd

Aug 2021 - Mar 2024

- Led the end-to-end development of Commercial Bank of Dubai, from requirements gathering to deployment, ensuring successful project completion.
- Designed and implemented robust and scalable software architectures for Transfers Module in Outsystems, improving performance and user experience.
- Conducted code reviews to ensure adherence to coding standards, best practices, and maintainability, resulting in high-quality codebase.
- Developed clean, efficient, and well-documented code in Outsystems, leveraging expertise in REST and SOAP.
- Implemented innovative solutions to optimize performance, improve user experience, and resolve complex technical issues in Outsystems.

Projects

Riyad Bank

Xebia Digital Solutions

Jan 2022 - Nov 2022

Outsystems

HTML

CSS

Javascript

- **Developed** and implemented new features to enhance the functionality of the tablet app and Windows-only desktop application.
- **Identified** and resolved development errors, resulting in improved performance and user experience.
- **Collaborated** effectively with the team to successfully achieve project goals and deliver high-quality software solutions.
- **Created** and managed the development of both the tablet app and Windows-only desktop application simultaneously, ensuring seamless integration and smooth operation.
- **Contributed** to the creation of innovative software solutions that met strategic business needs and provided value to end users.

Commercial Bank Of Dubai
Jan 2023 - Mar 2024

HTML

CSS

Outsystems

JavaScript

- **Developed** a reactive web application for Commercial Bank of Dubai with 3 different types of users: bank admin, corporate users, and corporate admin. Improved user experience by creating a seamless platform for bank admin, corporate users, and corporate admin to interact and carry out functions such as raising requests, creating beneficiaries, and modifying user information.
- **Implemented** a request approval system where corporate admin and corporate users can request actions that require approval from bank admin. Streamlined workflow by enabling efficient and secure communication between corporate admin, corporate users, and bank admin for approval and rejection of requests.
- **Created** functionalities for bank admin to approve or reject requests made by corporate admin and corporate users.
- **Improved** the overall performance and reliability of the web application. Enhanced the application's stability, responsiveness, and security, resulting in a smooth and efficient user experience for all types of users.
